

# MEME INFORMATION

## *¿Who is Natty?*

Natty is born as a natural fitness meme who will work to achieve an exceptional physique without steroids; he's not that kind of person.

Natty is going to surprise his fitness community... ¿are you going to miss it?

## *¿Why should I join the Natty Army?*

This meme project is specifically designed to create the largest fitness community in the entire crypto sector. Thanks to this, the community itself will benefit from a quality project, secure and with very interesting initiatives. The main objective is to create an inflationary token that increases in value over time, activate the anti-whale plan (greatly reducing the chances of dumps), attract a healthy audience through a carefully planned marketing strategy, and with an impeccable token airdrop system that has never been proposed in the crypto sector.

There is only one man capable of completing this challenge, his name is Natty.

## *¿What is Natty's purpose?*

Natty will start as a natural fitness meme, but his goals are very ambitious; he knows no limits. Come hell or high water, he will fight to make his token recognized throughout the fitness industry and accepted as a form of payment in gyms, sport stores, supplement shops, etc. Their most ambitious goal will be to open their own gym where FITC holders can train for free for life. All structured by a well-thought-out plan.

What could go wrong?

"Your body is your greatest investment"
